582-509B	TOBACCO PRODUCT AND METHOD OF PRODUCING THE SAME	✓
582-521CIP	SMOKING COMPOSITION AND METHOD OF PREPARING SAME	✓
582-522	IMPROVED RECONSTITUTED TOBACCO SHEET AND METHOD OF MAKING SAME	✓

notice 6-8-66 JH

Dear Thelma:

Attached hereto for review are the final application papers relating to the four above-identified applications. I believe these applications embody all of the changes which we discussed with Jack Hind in Richmond on May 19-20.

It is essential that the 521 case be executed by the end of this week and returned to us for filing in the Patent Office. The Examiner called me on May 24, asking whether or not the 521 case had yet been filed. As you know, he is holding up action on the appeal in the 380 CIP case, with the knowledge that we intend to replace that case with the present one, thereby enabling him to review the entire subject matter from the beginning. I told him we'd get this case on file by next week.

The other cases can, if they meet with the inventor(s) approval, also be executed at this time, andfiled concurrently with the 521 case. However, if there are changes to be made in the other cases, they can be returned to us with the indicated corrections and they can be filed at a later date.

If there are any questions with regard to any of these applications, please call me and we can discuss the same by telephone.

The 519 case (IMPROVED RECONSTITUTED TOBACCO) and the other matters we discussed today, will be put in tomorrow's pouch.

Sincerely,

Howard
